

Suffolk kitchen in Charcoal from €8,000. Neptune.com

D IS FOR DARKSIDE

Channel your inner Garth Marengi and go to the dark place with dramatic tones and textures. Who said a kitchen has to be all pale tones? If you have enough natural light coming in, you can use that to your advantage and take your cabinets and wall colour down a notch or 10. Offset jet-set shades with some drama thanks to wallpaper and add in metallic accents to bounce light around too.

F
